

## RING ITINERARY DEPARTING FROM OLIANINA FARM

Distance: km 62

Trip grade: easy, suitable for non-professional cyclists

Route: fully paved on the Right and Left River Po banks

– stop in San Benedetto Po, one of the most beautiful villages in Italy.

Leaving Olianina farm, we turn right and cover a brief stretch (only 2 Km) on the SS12 state highway until we head through Pieve di Coriano where we suggest a short stop to visit the gorgeous Matildic Church.

We keep riding on the main street and we come to the river Po bank, where we turn left towards Quingentole. 15 km after departure we leave the **right river Po bank** and ride for a few kms on the **river Secchia bank**, to then come back following the Great River at the 18<sup>th</sup> km. Once in San Benedetto Po we climb down the river bank and follow the signs to the town

center which is worth a significant stop (next to the Abbey, the Tourist Information Office is always open).

Ready to leave again, we follow the SP13 provincial road and cross the bridge over the river Po, we turn immediately left and take the **left river Po bank**. After passing through the small town of

Correggio Micheli, we ride on the **river Mincio bank** and in the small town of Sacchetta Cà Vecchia we take again the left river Po bank (40 km after departure). We proceed through Libiola, Serravalle a Po and come to Ostiglia, where we find the bridge which takes us again on the opposite side of the river, in Revere.

Once we come to the end of the bridge, we turn right and take again the river bank until Pieve di Coriano where we climb down and take the same path which we followed in the outward journey, to come back to the Olianina farm.
