

RING ITINERARY DEPARTING FROM OLIANINA FARM

Distance: km 29

Trip Grade: easy, suitable for non-professional cyclists

Route: fully paved on low traffic country roads and on the Right River Po bank from Masi di Carbonara to Pieve di Coriano

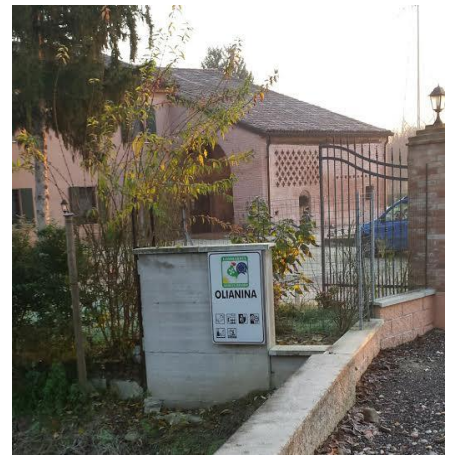

Once left the Olianina farm, we turn right and after 600 m we take the flyover on the right towards Magnacavallo, where we come after a 5 Km ride. In this small village with about 1600 inhabitants it is possible to visit (upon reservation) the Museum of Emigration, in the municipal hall spaces.

We keep riding and, at the end of the village we turn left following the signs for Borgofranco. We penetrate among the country fields until we come to the hamlet of Masi. Here we come up the river Po bank and turn left towards Revere.

The cycle lane on the Right river Po bank gives us wonderful landscapes in all seasons, also in the winter when the temperatures are quite frigid.

We ride until Pieve di Coriano where we leave the river bank and we climb down to the village. Here we suggest to have a brief stop to visit the gorgeous Matildic Church.

Once left Pieve di Coriano, we take the SS12 state highway towards Villa Poma, where we come back to the farm.
